Existing scene examples: 2-D geometry and recorded first-person views

A T-like region: blocked failure

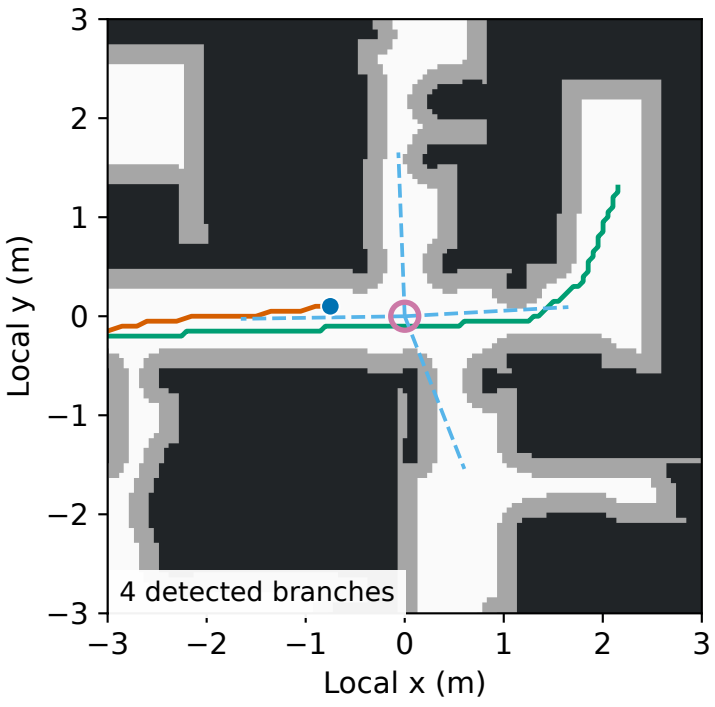

q4590 | Error location, query 4 / state 24

Existing RGB state 24; map witness state 24 | pose gap 0.00 m
Whole-task outcome: sustained blockage (not a local causal label)

B Cross-like four-branch space

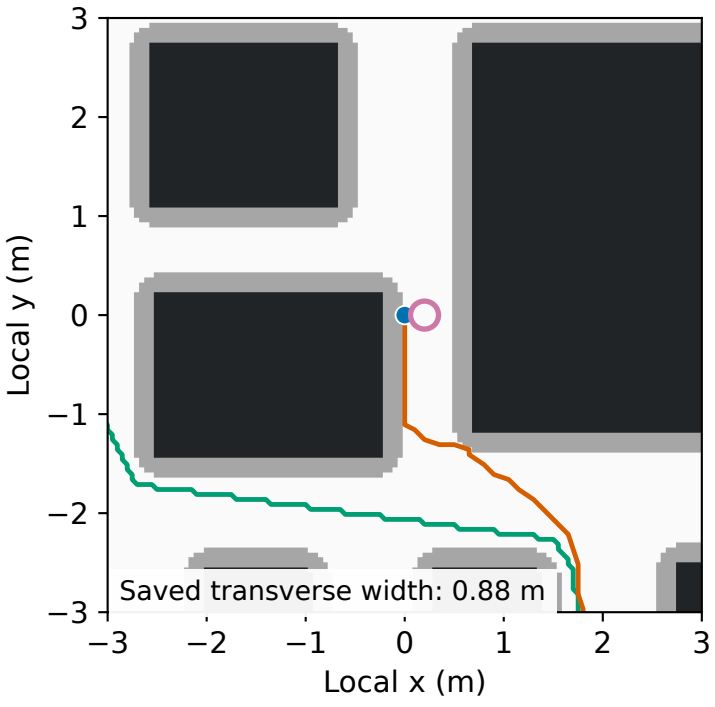

q582 | Local hallway connectivity

Existing RGB state 16; map witness state 20 | pose gap 0.63 m
Whole-task outcome: premature STOP (not a local causal label)

C Narrow two-sided passage

q1807 | Shelf-lined aisle

Existing RGB state 120; map witness state 124 | pose gap 0.51 m
Whole-task outcome: sustained blockage (not a local causal label)
